

ALTERNATIVE
SENIOR CARE

**A Breakthrough
Medication Reminder
and Dispensing System**

**Right Med • Right Dose
Right Time • Right Choice**

Alternative Senior Care's MedSmart System is a safe, convenient and automated solution that organizes, reminds and dispenses medications so they are taken properly and on-time. Available in both stand-alone and monitored versions, MedSmart improves medication adherence and reduces the risk of missed and dosing errors to support independent living.

Under the monitored version, device and compliance information is transmitted to a secure data center which allows caregivers and healthcare providers an ability to track compliance, proactively address dosing errors, ensure equipment functionality and predict refill requirements.

Benefits

- A safe, convenient way to manage medications
- Encourages better self-care and medication administration
- Reduces risk of hospital admissions associated with dosing errors
- Promotes adherence to treatment regimes

Powerful Features

Easy Fill Med-Trays

MedSmart comes with two (2) removable Med-Trays that can be filled by a caregiver or healthcare provider. Trays can be stored either on or off-site to expedite refill.

Back-Up Battery

MedSmart operates on AC power when in the docking base and battery power when in transit or in the event of a power outage.

Audible and Visual Reminder Alarms

MedSmart can be programmed from 1 to 6 times per day to provide audible and visual medication reminder alarms.

Monitoring

MedSmart transmits device and compliance information using a toll-free number to the data center. Authorized users can access individual and group information to monitor compliance and operating status.

Alerts and notifications can be sent via email, text or voice to alert caregivers and providers of missed doses, refill requests and device diagnostics.

- 1 Large Digital Display**
- 2 29 Cell Trays with Loading Template**
